JAPANESE TO PURSUE SCIENTIFIC STUDIES

(Associated Press Correspondence)
Tokio, Sept. 18.—Three eminent Japanese scientists recently were sent to America by the Japanese government for the prosecution of scientific studies. The investigation will contribute to the development of chemical and other industries in Japan.

The mission is composed of Dr. Masaharu Nishikawa, lecturer of the college of science of the Imperial Tokyo university; Genshichi Asahara, a graduate of the same university and Dr. Kikumae Ikeda, also professor of the college of science. The first two scholars will pursue scientific studies entering some state university with a view to contributing to the successful work of the Japanese government institute. Dr. Ikeda, who is senior professor and an authority on chemistry, is commissioned with the investigation and inspection of the development of scientific studies and industries, both theoretical and practical.

Russian Soldiers Kill Officers.
Helsingfors, Finland, Sept. 18.—In the course of disorders at the Finnish fortified seaport of Viborg, seventy-four miles northwest of Petrograd, in which soldiers were involved, twenty officers were killed and sixty others are missing.

RED CROSS SEES TUBERCULARS IN PARIS HOSPITALS

Gains Permission to Visit and Befriend the Sick by Supplying Food, Games and Reclining Chairs.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Washington, Sept. 18.—The following cable from Maj. Grayson M. P. Murphy, head of the Red Cross commission to France, has been received by the Red Cross war council:

"Systematic visitation of municipal tuberculosis hospitals in Paris has just been begun by the American Red Cross. On the first visit inquiries were made of patients as to what they most needed. On the second occasion the visitors did not go empty handed; they took with them games, stationery, postage, jelly, colored crayons, sketch books, etc.

Pavilions Not Full.
"During the past year the city of Paris has established temporary tuberculosis pavilions on the grounds of six general hospitals; the total capacity of these pavilions is 464 beds. Notwithstanding the enormous number of tuberculosis patients in Paris among the refugees and persons invalidated from the army, these pavilions are not more than half full. Many factors contribute to this result. The large amount of work thrust upon the civil authorities by the war conditions has not permitted much to make the pavilions attractive.

To Befriend Tuberculars.
"The American Red Cross has secured permission to visit these hospitals and to befriend the tubercular patients. It hopes that not only will the lives of these patients be made much more comfortable, and their families relieved of anxiety, but that making the surroundings more cheerful, providing additional food, games, better equipment, reclining chairs and some form of recreation and entertainment, will result in the patients staying for longer periods.

"The use of the pavilions to their capacity would obviate the necessity of erecting additional tuberculosis hospitals with 300 beds, which would involve great expense and some delay."

JAPAN STANDS BY AMERICA, SAYS VISCOUNT ISHII

No Points of Difference Between Two Nations Which Cannot Be Settled by Discussion, Is Declaration.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Boston, Sept. 18.—Japan is in this war on the side of America and the allies, "to win with you, to co-operate, to co-ordinate and to contribute," Viscount Ishii declared tonight at a banquet given at the Copley plaza in honor of the Japanese mission, of which he is the leader.

"We do not enter into treaties to tear them up," he continued earnestly. "Our treaties are not scraps of paper. We have tried to carry our share of the burden. We have helped free the Pacific from the ships and influence of the nation which has thrown off its thin covering of decency and now stands revealed in all the horrid nakedness of the savage."

In both addresses the viscount gave today, at the banquet and at the convention to revise the state constitution, he dwelt upon the ties that bind America and particularly New England to Japan. He referred to the friendships formed by the Japanese youths who have been educated in such great numbers in New England colleges and to the American men and women who have carried their ideals to the island empire.

At the banquet, Viscount Ishii said: "I feel, now that I have traveled from your western to your eastern shores that, after all there are no points of difference between us which cannot be settled as time goes by and gives opportunity for discussion between the statesmen of your country and my own."

WACO MAN GAINS 18 POUNDS ON TANLAC

"I Feel Better Than I Have in Twenty-five Years Says William Truett.

"It's an actual fact, I have gained eighteen pounds on two bottles of Tanlac and I now feel younger and better than I have in twenty-five years." This interesting and remarkable statement was made by William O. Truett, watchman for the M. K. & T. railroad, and living at 121 North Sixth street, Waco, Texas.

"About four years ago," he continued, "I began suffering with indigestion and gas on my stomach and going down hill. After eating, I would swell up as tight as a drum and suffer for two or three hours and what I had eaten felt like lumps of lead in my stomach. I was constipated all the time and had to take something every day for this trouble. I had been shooting pains from my hips down which I was told was sciatic rheumatism. I was as nervous as a rat in a trap and it was almost impossible for me to get any sound sleep or rest. I was almost completely run-down and played-out and for two years I couldn't work enough to pay my necessary expenses. I went to Marlin, Texas, and spent a hundred dollars for a month's treatment there and it didn't do me a nickel's worth of good. I then went to Missouri and to Dallas for treatment and paid out over three hundred dollars but nothing gave me any relief, and it just looked like I was doomed to be a sufferer the rest of my days.

"Then I got to taking this Tanlac I had read and heard so much about. It has been a life saver to me and would be cheap at a hundred dollars a bottle compared to what other treatment and medicine cost me and the suffering I had to endure for those four years. I'm just now buying my third bottle and I have had no pain or gas in my stomach in some time and I can just eat anything without it hurting me. I'm not a bit nervous now and just sleep like a child every night. I'm not constipated like I was and the rheumatism pains are all gone out of my hip and leg. In fact, all my miserable feelings are gone now and I just feel new life and energy in every nerve of my body. As I have said, I have gained eighteen pounds and I now weigh one hundred and sixty-eight pounds and feel younger and better than I have in twenty-five years. I wouldn't take any amount of money that could be offered for the good that Tanlac has done me and I would be ungrateful not to tell others what it is that got me out of my suffering and made a well man of me."

Will Be Repaid for Their Work.
Women everywhere suffer from kidney trouble—backache, rheumatic pains, swollen and tender muscles, stiff joints—and it is to help those who suffer as she did that Mrs. C. J. Ellis, 505 Eighth avenue, Sioux Falls, S. D., writes: "I feel sure if any one bothered as I was will give Foley Kidney Pills a fair trial they will be repaid for their work. It seems foolish to neglect an ailment when there is such a remedy to be had." They correct bladder disturbances, too. For sale by Royal Drug Co.

RUSSIAN GENERAL STAFF REORGANIZED

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Petrograd, Sept. 18.—It was announced from an authoritative source that reorganization of the headquarters staff has been completed and that the new high commands will enter upon their functions forthwith. The war minister, General Verkhovsky, has informed the newspaper representatives that the government is about to realize a series of important reforms with the object of creating a strong revolutionary army.

It is stated authoritatively that the government considers the proclamation of a republic as merely a declaratory act and does not propose to form a republican administration before the

constituent assembly is convened. The commission of inquiry sitting at Pskoff has ascertained that General Kiembovsky did not participate actively in the Korniloff revolt, and therefore declares he is not liable to arrest. The evidence in the case has been forwarded to Premier Kerensky.

RECALL FROM MEXICO OF CRONHOLM EXPLAINED

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Stockholm, Sept. 18.—The recall of Folke Cronholm from Mexico, according to information reaching the Associated Press, was not due to political reasons but was because of charges brought by Sweden in Mexico in connection with certain business activities of Cronholm and his association with

individuals of doubtful character in Mexico. The Swedish foreign office recalled him to make an explanation, after receiving a letter containing these charges from prominent Swedes in Mexico. Cronholm explained his activities and was retired from the service.

Folke Cronholm, attache of the Swedish legation in Mexico City, was proposed to the German foreign office as a candidate for a German order by German Minister von Eckhardt at Mexico City. Cronholm, Eckhardt said, had been a great service to him in Mexico.

TOBACCO IS MIGHTY SCARCE NEAR THE TRENCHES

FROM IRVIN COBB'S "TATHS OF GLORY"

"As I recall now, we had come through the gate of the school house to where the automobile stood when a puff of wind blowing to us from the left, which meant from across the battlefield, brought to our noses a certain smell which we already knew full well.

"You get it, I see," said the German officer, who stood alongside of me. "It comes from three miles off, but you can get it five miles when the wind is strong"—and he waved his left arm toward it as though the scent had been a visible thing. "That explains why tobacco is so scarce with us along the staff back yonder in Laon."

"All the tobacco which can be spared is sent to the men in the front trenches. As long as they smoke and keep on smoking they can stand that."
